Norman Rockwell—America's most beloved artist. He is a founder and member of the Guiding Faculty of the Famous Artists School.

'We're looking for people who like to draw'

says Norman Rockwell

Today hundreds of men and women who never thought they could be artists are working at easels and drawing boards, making pictures and getting well paid for it. They all can thank a group of famous artists who have devoted much of their time and talent to helping others find success in art.

Some of the people the Famous Artists have helped

Carl Rock was an 18-year-old apprentice in a Chicago art studio when he enrolled. Today he prepares ads for such companies as General Motors and Firestone—has won five gold medals.

Howard Sanden of Minneapolis took the Course while still in high school. He is now a successful artist—recently he and his wife traveled through Europe and the Middle East on important art assignments.

Paul Sullivan enrolled at 14. His Famous Artists training helped him work his way through college.

Kathleen Gironda of Indiana, Pennsylvania, was an 18-year-old salesgirl in a department store. She still works for a department store, but now it's as an advertising artist and fashion illustrator.

With Famous Artists training James Ryan, formerly a clerk, has become an illustrator at Hughes Aircraft—and turns out a steady stream of well-paying free-lance artwork in his spare time.

Oregon housewife Helen Tryk lives 150 miles from the nearest big city. But she does fashion illustration, has her own studio, runs an art work shop, does portraits.

A plan to help others

It started over 18 years ago when a group of America's most successful artists—men like Albert Dorne, Norman Rockwell, Jan Whitecomb, Al Parker and Stevan Dohanos—met in New York City. They knew that all over America there were people who liked to draw who could be turned into good artists. Albert Dorne asked, "Why can't we give these people the

training they need—including all the trade secrets and know-how we've learned over the years?"

He suggested a new kind of art school—a home study art school—that would give talented people the best professional art training, no matter where they live.

The famous artists agreed. Taking time from their busy careers, they created a remarkable series of art lessons covering every aspect of drawing and painting. They illustrated their lessons with over 5,000 "here's-how" illustrations. The lessons start from scratch and cover every skill a top artist needs. Finally, they developed a wonderful way to give each student personal correction and advice all through his training.

The famous artists with the School are not surprised at the success of their students. The opportunities open to successful artists today are enormous. The School continually gets calls from all over the country asking for practical well-trained students—not geniuses—who can step into full-time or part-time art jobs. And practical, thorough training is what the School offers.

Famous Artists Talent Test

To find others with art talent worth developing, the Famous Artists created a 12-page Talent Test. Thousands paid to take this test, but now the School offers and grades it free. Men and women who do well on the test—or offer other sufficient evidence of art talent—may enroll in the School. But there's no obligation. Simply mail the coupon below.
